

PROFITABLE AUTOMATION FOR MEDICAL PRODUCTION

We welcome you to visit us at the upcoming MedTec Europe show in Stuttgart April 12–14

In our booth you will be able to experience live and learn all about LMS – *Linear Motion System*, a modern platform for motion control and how AutomationsPartner integrate this platform for your benefit.

To pre-book a meeting please contact us at sales@automationspartner.se

Very welcome to our booth 7C27.

The International Exhibition for European
Medical Device Manufacturers

AutomationsPartner AB in Ramlösa Sweden develops and manufactures sophisticated automation equipment for the pharma and medical device industry mainly within IV-catheters, pen-delivery systems, auto injectors and inhalers.
